## Integrated Care: Navigating The Evolving Health Care System In 2017

TUESDAY MAY 16, 2017  
12PM EST | 9AM PST

The health care landscape continues to be dynamic in 2017. Part of the evolving system involves primary care providers coordinating multiple facets of health, including mental wellness. Although this responsibility is falling on primary care providers, many find it difficult to navigate the complexities of mental health, not only when evaluating various treatment protocols but also who, when, and where to refer for mental health care.

Integrated care has been a proposed mechanism to coordinate mental and physical health among providers, however, it takes a variety of shapes and one size does not fit all practices. In this virtual forum, two primary care providers, Sloan Manning, MD and Marla Moses, FNP, PMHNP, and a psychiatrist colleague, Clayton Chau, MD, PhD, will discuss successful integrated care programs including implementation and validation of treatment protocol effectiveness. Additionally, they will examine the dynamic roles of the various types of mental health care providers.

### Featuring:

#### Sloan Manning, MD

Sloan Manning, MD serves as the Medical Director at Novant Health Urgent Care & Occupational Medicine in Greensboro/Winston-Salem, North Carolina.

#### Clayton Chau, MD

Clayton Chau, MD is the Regional Medical Director of Institute for Mental Health & Wellness at St. Joseph Hoag Health System.

#### Marla Moses, FNP, PMHNP

Marla Moses, FNP, PMHNP owns a private practice, IN Moses Mental Health in Indianapolis, Indiana, which is focused on mental health across the lifespan.

Gwen Morris, PhD, Medical Science Liaison for Otsuka Pharmaceutical Development & Commercialization, Inc., will be the moderator of this event. Speakers are paid consultants of Otsuka Pharmaceutical Development & Commercialization, Inc. and will be compensated for participation in this event.
