## Can We Improve Functioning In Our Patients With Schizophrenia?

Wednesday, September 26, 2018 | 12pm ET | 9am PT

Clinicians are tasked daily with making informed decisions regarding patients. During this Virtual Forum, Greg Mattingly, MD, and Ralph Aquila, MD, will discuss how treatment of individual patients with schizophrenia can be optimized for effective control of symptoms while minimizing side effects. They will examine the differences in antipsychotic receptor binding profiles, their side effects, and the impact that these can have on patient functioning and goal achievement on their way to recovery.

Speakers are paid consultants for Otsuka Pharmaceutical Development & Commercialization, Inc.

Greg Mattingly, MD  
Associate Clinical Professor,  
Washington University School of Medicine

Ralph Aquila, MD  
Medical Director, Fountain House, Inc.; Director,  
Sidney R. Baer Jr. Center, New York, NY; & Chief  
Executive Office, Center of Reintegration, Inc.

Julleah Johnson, PhD, Senior Medical Science Liaison,  
will be the moderator of this event.
