Impact of Novel Coronavirus Pandemic on Mental Health

Wednesday, March 25, 2020 | 12pm ET | 9am PT

In this webinar, Paul Gionfriddo, President of Mental Health America and Christine Moutier, MD, psychiatrist and Chief Medical Officer for the American Foundation for Suicide Prevention, discuss the impact of the novel coronavirus (COVID-19) pandemic on mental health with Stephen Murray, PharmD, MBA, Senior Medical Science Liaison for Otsuka Pharmaceutical Development & Commercialization, Inc.

Our speakers will discuss the effects of social distancing, isolation, and stress of this crisis have on overall health and mental health. Dr. Moutier will share her expert advice on self-care tips for providers along with her perspectives on using digital technology to engage patients. Mr. Gionfriddo will discuss the effects of this crisis on individuals with underlying mental health conditions and share some useful tips for family engagement during this period of isolation.

Speakers are paid consultants for Otsuka Pharmaceutical Development & Commercialization, Inc.
